PROGRAMING SKILLS

- HTML, CSS , JAVASCRIPT
 - PHP
 - PYTHON
 - JAVA
 - C LANGUAGE
 - Bootstrap
-

PROJECTS

TeilenIT (Website link - teilenit.000.pe)

3 semester project

- It is a educational website Empowering learners worldwide with knowledge and skills in the rapidly evolving field of technology .

Doorlock System

5 semester project

- It is a IOT based project . it describe a password based door lock system using Arduino the system uses a keypad to enter a password . if the enter password matches the microcontroller will open the door by activaing a motor and the door is open.

Multitech AI Robot

6 semester project

- AI allows articulated robots to perform tasks faster and more accurately. AI technologies infer information to segment and understand scenes as well as detect and classify objects.in this project my part is speech recognition using python and design.
-

FREELANCEING

Admin Panel (invoice Management System)

1 July - 12 July 2024

- It is a software that helps extract, process, store, and manage invoice data. An automated invoice management system efficiently eliminates the time-consuming and repetitive steps involved in manual invoice management. using php and bootstrap.
-

EDUCATION

Camellia Institute of Engineering and Technology

2024-continue

Computer science and engineering

- Pursuing

ITAHAR GOVERNMENT POLYTECHNIC

2021-2024

Computer Science and technology

- 1st to 6th semester(OGPA) - **7.9**
-

ADDITIONAL INFORMATION

- **Skills:** Management , Creativity, Leadership
- **hobbies :**Drawing, movies, cricket
- **Languages:** English, Hindi, Bengali
- **Certifications:** Python crash course using GUVI
